

Request for Proposals Erate Category 2 Project TUNICA COUNTY SCHOOL DISTRICT

Notice to Bidders

Notice is hereby given to interested bidders that the Tunica County School District will receive written, sealed bids until the hour of **2:00 p.m. on Tuesday, February 16, 2016**. Bids will be opened on February 18, 2016 at 2:00 pm in the Board Room of the Tunica County School District Office Building at 744 School Street, Tunica, MS.

Bid Timeline

Form 470 and RFP Posted	Thursday, January 14, 2016
Mandatory Pre-Bid Site Visit	Friday, January 29, 2016, 2:00 p.m.
Bid Due Date	Tuesday, February 16, 2016 2:00 pm
Bid Opening	Thursday, February 18, 2016 2:00 p.m.

Erate Category 2 Project (Description)

The Tunica County School District wishes to upgrade its Erate eligible category 2 LAN equipment, cabling infrastructure and wireless equipment at its Vocational School to allow students to simultaneously operate 35 wireless devices in specified classrooms and 100+ wireless devices in specified common areas such as but not limited to libraries, auditoriums, gyms and cafeterias. The Vocational School also must upgrade its existing Wired LAN infrastructure, as most of the LAN switches are end of life.

The RFP will consist of 4 parts: Cabling, Wireless, Switches and Managed Services/Basic Maintenance. Vendors may bid on any or all parts. For example, a vendor may bid cabling only, or Switches and Wireless, or Services/Maintenance only, or all parts as a turnkey solution. Any discounts for bundled pricing or winning more than one portion of the RFP will be considered and allowed.

Building Diagrams will be available at the mandatory vendor meeting.

The capacity of the access points should allow students to conduct moderate to heavy Web access for research with minimal video streaming, such as all students being able to view a 2-4 minute online video in HD once every hour. The Bidder may assume that the Tunica County School District has sufficient Internet bandwidth to supply the requirements above. The primary objective is to ensure that bottlenecks do not occur at the wireless access point under the specified conditions.

Seamless roaming on the campus and within the same mobility domain without ever needing to re-authenticate will be required. Should the bidder propose a solution that does not meet the specifications listed below, the vendor must provide sufficient documentation that the District's objective will be met with the vendor's proposed solution.

The district prefers a model that offers one wireless access point per every two classrooms and wireless coverage in common areas such as the gym, cafeteria, etc. Proposals should include upgrade pricing for additional Access Points and switches. Proposals engineered for coverage only and not capacity as stated in the RFP will not be considered.

If a proposal offers less than one access point per every two classrooms, vendor must provide solid documentation from the manufacturer that guarantees coverage will meet the needs described above.

Proposals should include a realistic assessment of actual access points as well as cabling and other equipment necessary to support the wireless needs outlined above and specified below. Technical specifications of equipment should be provided with the proposal.

The proposal must guarantee performance sufficient to fulfill the needs of the Tunica County School District as specified within this RFP. After implementation of the successful vendor's proposal, if additional equipment, cabling or labor is needed, the vendor will bear all costs necessary to satisfy the requirements of this RFP and of the vendors proposed solution.

It is the vendor's responsibility to ensure that the equipment proposed meets the performance specifications of the manufacturer and the previously stated requirements. The Tunica County School

District will not release the vendor from the performance guarantee required above, because of malfunctions or defects in equipment due to manufacturer error or flaws in the equipment.

In order to be eligible to bid, all prospective bidders must attend a pre-bid conference at 2:00 p.m. January 29, 2016 and a building walkthrough afterward. The pre-bid conference will be held at the Tunica County School District Office located at 744 School Street, Tunica, MS. Proposals from vendors who do not complete the conference and walkthrough WILL NOT be considered.

At the time of the pre-bid conference, all bidders will be expected to complete and turn in the "Site Visit Information Form" at the end of this document.

Bids will be opened at 2:00 p.m. on February 18, 2016. For more information, contact Eric Brown at browne@tunicak12.org

Clarification

If after the completion of this project, during normal operation of the network, the district discovers that the wired and/or wireless network will not meet the capacity requirements of this RFP, the vendor will be required to do whatever is necessary to meet the specifications with no additional cost to the Tunica County School District

General

The specifications herein are provided to convey the intent of the system and do not indicate every cable or component necessary for the complete system that the proposing vendor shall provide.

Prices quoted shall be an all-inclusive solution including all applicable taxes, shipping costs, installation of equipment, configuration of equipment, any necessary cabling, training, technical support and trash removal, and represent complete installation and integration with the existing network where necessary. All equipment included in vendor's proposal must be new equipment purchased from an authorized reseller. No grey market, third party, or used equipment will be considered. Prices quoted in the vendor's response will remain in effect for a period of eighteen (18) months from the time of the contract signing.

Omissions in the proposal of any provision described herein shall not be construed as to relieve the vendor of any responsibility or obligation to the complete and satisfactory delivery, operation and support of any services.

Should the vendor have questions or find discrepancies in, or omissions from this RFP, or be in doubt to it's meaning, the vendor shall at once notify Tunica County School District. All questions should be addressed to Eric Brown as outlined below. The preferred mode of contact is via email.

Eric Brown, Technology Coordinator, Tunica County School District

Questions must be submitted to the email address browne@tunicak12.org. If a response is not received within 24 hours, it is the responsibility of the respondent to call Eric Brown at 662-363-3507 or 662-541-0697 to confirm receipt of the questions.

Bid Submission Instructions

Bids will be due at 2:00 p.m., February 16, 2016 and bids will be opened at 2:00 p.m., February 18, 2016, in the Board Room of the Tunica County School District Office located at 744 School Street, Tunica, MS.

Bids must be submitted in a sealed envelope clearly marked as follows:

“2016 Erate Bid”

Bidders Certificate of Responsibility Number must be clearly marked on the front of the envelope if applicable.

Envelopes not so marked will remain sealed. The Tunica County School District Board of Trustees reserves the right to reject any and/or all bid and waive any informality.

Bidders must submit one (1) original and three (3) copies and one (1) electronic copy of their full response.

The first page showing in the bid submission packet must be Bid Worksheet.

Bids must include the following:

The “Bid Worksheet” completed and signed by the bidder

Required Documents as listed in the RFP

It is the sole responsibility of the respondents to ensure their responses arrive in a timely manner. Late arrivals will be rejected. The Tunica County School District is not responsible for delays of any commercial carrier or delays incurred by the respondents. Oral, telephone, or electronically transferred bids will not be considered. Signatures on the proposals must be in longhand and executed by a principal duly authorized by the vendor to make a contract.

PLEASE NOTE: Common Carriers, UPS and FedEx, in the Tunica Mississippi area generally do not deliver overnight packages on time. The Tunica County School District will not be responsible for nor will it accept bid responses delivered after the deadline.

Questions

Questions must be submitted to the email address browne@tunicak12.org. If a response is not received within 24 hours, it is the responsibility of the respondent to call Eric Brown at 662-363-3507 or 662-541-0697 to confirm receipt of the question. All questions and responses will be posted within 24 hours on the district’s web site at <http://www.tunicak12.org>

It is the sole responsibility of the respondent to visit this page prior to bid submission to ensure they have the latest information.

Certificate of Responsibility

1. Each bidder submitting a bid in excess of \$50,000 on public projects must show on his bid and on the face of the envelope containing the bid, his Certificate of Responsibility Number, as required by Section 31-3-5 and 31-3-21 (latest edition) Mississippi Code of 1972. If the bid does not exceed the amount of \$50,000 on public projects, a notation so stating must appear on the face of the envelope.
2. When multiple contractors submit a joint venture bid in excess of \$50,000.00 on public projects, a Joint Venture Certificate of Responsibility Number is required on the bid and face of the envelope. If the Joint Venture has no Joint Venture Certificate of Responsibility number, then each member of the Joint Venture must indicate their individual Certificate of Responsibility numbers on the bid and on the face of the envelope.
3. Each subcontractor whose Subcontract exceeds \$50,000.00 on public projects shall have a Certificate of Responsibility Number, as required by Section 31-3-15 and 31-3-21 (latest version), Mississippi Code.
4. No bid will be opened, considered or accepted unless the above information is given as specified. Sufficient evidence that said Certificate of Responsibility has been issued and is in effect at the time of receiving bids must be submitted when required by the Owner. Likewise, it shall be the responsibility of the Prime Contractor to require a Certificate of Responsibility Number from any subcontractor where applicable.

Evaluation Methodology

The Tunica County School District Board of Trustees will award a contract based on the vendor submission that best meets the needs of the school system with regard to the current Technology Plan, future growth, RFP specifications, and not necessarily the lowest price even though price will be the priority factor. The following factors will be considered when evaluating responses:

- Price, based on 5-year cost of ownership estimate (to include base price, renewal fees and additional support fees).
- Strength of References
- Adherence to Technical Specifications
- Technical Certifications of Vendor Staff
- Number of Service Staff within close proximity to Tunica, MS
- Vendor response time for Managed Service or Basic Maintenance
- Turnkey Solution
- Ease of Use
- Preference will be given for prior positive experience with the Vendor
- Preference will be given to Mississippi based vendors

Vendor Qualifications

The Tunica County School District may make such investigations as deemed necessary to determine the ability of the bidder or subcontractors or suppliers to perform the work, and the bidder shall furnish to the Tunica County School District all such information and data for this purpose as the Tunica County School District may request. The Tunica County School District reserves the right to reject any bid if the evidence submitted by or investigation of such Bidder fails to satisfy the Tunica County School District that such bidder is properly qualified to carry out the obligations of the contract and/or to complete the work contemplated therein within the time required.

The bidder is specifically advised that any person, firm or other party to whom it proposes to award a subcontract or purchase order under this contract must be acceptable to the Tunica County School District.

The successful vendor (contractor) must have or be certified with the following:

- Be able to supply all products and services
- Be an authorized dealer in the State of Mississippi for all products
- Have current liability insurance and workers compensation insurance
- Provide the documentation of the vendor's employee certifications for cabling, wireless and switching
- Participate in the mandatory site walkthrough that will be held on January 29, 2016, at 2:00 p.m. Any bid submitted by a vendor who does not complete the mandatory walkthrough will not be opened. There will be no exceptions.
- Provide an Erate SPIN
- Provide at least 3 references for projects of the same scope and size
- Vendor must be willing to use the Service Provider Invoice (SPI) Discount Billing method

Financing

This project will be subsidized by the Erate program and is therefore subject to funding availability and contingent upon Erate funding.

Disqualification of Bidder

The Tunica County School District reserves the right to award to other than the lowest bidder when, in the judgment of the district administration, it is in the best interest of the district do so. A Bidder may be disqualified for such reasons as:

1. Bidder's failure to comply with requirements regarding Certificate of Responsibility
2. Bidder's failure to sign Bidder's Proposal Form or to otherwise properly complete the Proposal Form
3. Bidder's failure to attend and complete the mandatory site walkthrough
4. Bidder being in litigation or dispute with the Tunica County School District
5. Bidder having defaulted on a previous contract
6. Bidder having preformed unsatisfactorily on a previous contract, including but not limited to the Bidder's failure to fulfill the warranty obligations of a previous contract with the Tunica County School District
7. Bidder's failure to include documentation for required certifications and authorizations

The above is not an inclusive list.

The Tunica County School District will strictly adhere to the rules and regulations of the Erate program when evaluating bid responses.

Cabling Specifications Part 1

Cabling for Access Points

All cable and cabling components including jacks and patch panels used in this proposal will be Category 6 rated.

- Bid must include cabling and all necessary components (patch cables, patch panels, jacks and mounts, crimp ends, racks, etc.)
- New Cat 6 cables must be run for each proposed access point. The number of cables run should be equal to the number of RJ45 Jacks that connect to the network switch found on the proposed access point to which the cable is being run.
- Current cables and patch panels may not be used for this project unless they are Cat 6 Rated cables. If the rack in the IDF or MDF is not large enough to accommodate the additional Cat 6 Patch Panel, racks should be quoted.
- Bid must include cost of labor and installation.
- Any cables run by the vendor will be terminated into a patch panel and labeled indicating the AP to which it attaches.
- Any power injector used by the vendor in their solution must meet the standards of the AP manufacturer for the AP being powered. Power injectors are not preferred and will only be considered when it is not feasible to connect to a POE switch
- Patch cables from the patch panel to the switch will be YELLOW, Cat 6 cables and will be provided by the vendor.

Wiring Information

All Buildings

Drop Ceilings

Cable can be bundled without any conduit but it must be off the ceiling using hooks.

Open Ceilings

The cable may be run out-of-sight along the beams if needed.

Walls

If cable is run along an open wall, it must be in Ivory Panduit or similar enclosure.

Cable

Cable must be the same color throughout the district and it must not be either Blue or White. Cable must be rated as Cat 6.

Wireless Project Specifications Part 2

Wireless Infrastructure

The Tunica County School District is requesting an all-inclusive solution including all applicable taxes, shipping costs, installation of equipment, configuration of equipment, any necessary cabling, training, technical support and trash removal, and represent complete installation and integration with the existing network where necessary. All equipment included in vendor's proposal must be new equipment purchased from an authorized reseller. No grey market, third party, or used equipment will be considered. Prices quoted in the vendor's response will remain in effect for a period of eighteen (18) months from the time of the contract signing.

If the same vendor does not win Part 2 (Wireless Project) and Part 3 (LAN Switch Upgrade), each vendor must be willing to work with the other awarded vendor on installation and configuration, so that the Wireless network and Wired network integrate and work seamlessly together.

Required Specifications for Wireless Project

- The wireless system must support a stateful application-layer firewall that can identify, classify, and prioritize applications using layer 7 intelligence. Applications should be able to be traffic shaped as well to ensure that recreational applications (like Pandora, Spotify, etc.) do not consume all of the available bandwidth.
- The wireless system must include intuitive multi-site scalability and management. Must be able to deploy multiple sites rapidly and monitor, manage and troubleshoot all sites from a single web-based interface. This includes being able to "clone" configurations of devices automatically, and easily re-assign assets to other network areas as needed. This must be 100% GUI based, and no Command-Line (CLI) programming for any features is permitted.
- The wireless system must support the ability to fingerprint client device types (i.e. iPad, Android, iPhone, Windows, etc) and apply security settings to those devices, without the need for additional appliances or licenses. For example: iPads on the Student SSID may have access to only the web and are rate limited to 512 kbps, and no peer to peer traffic is allowed.
- The wireless system must support Bonjour gateway services to allow Airplay, printing, iTunes and other Bonjour-based services to flow seamlessly across the wireless network.
- The wireless system must support the ability to easily replicate and clone configurations across multiple different sites using a single click. Ideally, a configuration could be changed once and then replicated across multiple sites.
- The wireless system must support the ability to take a packet capture directly from the management interface. This packet capture should be able to filter based on client, IP address, and MAC address.
- The wireless system must support the ability to provide deep application visibility into all of the applications that are used on the wireless network, including hostname visibility to view the individual URLs of all of the applications. This information should be exportable and downloadable on a per network and per SSID basis.

- The wireless system should have built in guest access and not require any additional appliances or licenses for guest users.
- The wireless system must include a tagging function to provide easy search-ability across our network, device types, and users with search "tagging" functionality.
- The wireless system must support the ability to send summary reports to certain administrators on a daily, weekly and monthly basis. These summary reports should show information like top users, top applications, bandwidth consumed per day, etc. These summary reports should be able to be sent on a per school basis, or aggregated for multiple schools using a tagging mechanism. For example, one administrator may want to see summary report information for all elementary schools in aggregate every week.
- Solution must include a fully integrated, Mobile Device Management platform capable of managing Apple iOS, Android, Windows, and Mac OSX devices all from the same common management interface as the WLAN, Access Switching, and Security Appliance products.
- Solution must provide rich layer 7 application visibility and control for classification (e.g. Skype, BitTorrent, web traffic) and shaping of that traffic.
- Solution must include fully integrated client, device, and OS visibility, with ability to assign policies via the management interface to different users, networks, and device types based on preferences. Group policies must be universally applicable to all access points and switches. Management interface must be 100% GUI based, and no Command-Line (CLI) programming for any feature is permitted.
- Wireless system must have built-in redundancy and reliability. Solution must be able to provide a 99.99% service level agreement.
- The wireless system must include a Mobile Management application. This application must be supported on both Apple iOS and Android mobile operating systems. This single mobile application must be able to do the following:
 - Monitor wireless, switching, and security infrastructure
 - See all wireless, switching, and security infrastructure network status and usage via easy to read graphs and tables
 - Receive push notifications for any network outages
 - Scan access point barcodes to facilitate adding them to the network
 - Utilize the mobile device's camera to photograph and document access point mounting locations
 - Pinpoint access point location using Global Positioning System (GPS)
 - Verify device and client connectivity using live tools like Ping, Traceroute, etc.
 - Quickly deploy group policies to clients that control L3/L7 firewalling, traffic-shaping, and content filtering
 - Provide the capability to easily block clients from the network
 - Be both PIN code and Password securable
 - Provide easy access to Support Case management
 - Be able to read device event logs remotely

- Show individual client Application Usage history (example - YouTube, Instagram, Facebook, etc.)
- Anyone who responds to this RFP must also be able/willing to provide an option for device by device substitution for access points and switches if “Wave 2” or newer device becomes available before installation.

Required Equipment Specifications for Wireless

The specifications herein are provided to convey the intent of the system and do not indicate every cable or component necessary for the complete system that the proposing vendor shall provide. Please ensure quotes include any necessary license, support, connecting cables, SFPs, etc to ensure a complete system.

Wireless Access Points

Meraki MR32-HW or equivalent

24 Port Switches for Wireless

Cisco WS-C2960X-24PS-L or equivalent

LAN Switch Upgrade Specifications Part 3

The Tunica County School District is requesting an all-inclusive solution including all applicable taxes, shipping costs, installation of equipment, configuration of equipment, any necessary cabling, training, technical support and trash removal, and represent complete installation and integration with the existing network where necessary. All equipment included in vendor's proposal must be new equipment purchased from an authorized reseller. No grey market, third party, or used equipment will be considered. Prices quoted in the vendor's response will remain in effect for a period of eighteen (18) months from the time of the contract signing.

The vendor will be required to configure all switches in this proposal. They will configure VLANs to the specifications of the Tunica County School District IT department as part of this proposal. Currently there are multiple VLANS operating on the district network. The Vendor will also be required to communicate with INLINE and work with CSPIRE so that the INLINE and C SPIRE owned and controlled WAN switch works properly with the VLAN configurations on the proposed switches.

If the same vendor does not win Part 2 (Wireless Project) and Part 3 (LAN Switch Upgrade), each vendor must be willing to work with the other awarded vendor on installation and configuration, so that the Wireless network and Wired network integrate and work seamlessly together.

Bid must include cost of configuration and installation and training on configuration and maintenance for the Tunica County School District's IT Department

Required Equipment Specifications for LAN Switches and UPSs

The specifications herein are provided to convey the intent of the system and do not indicate every cable or component necessary for the complete system that the proposing vendor shall provide. Please ensure quotes include any necessary license, support, connecting cables, SFPs, etc to ensure a complete system.

24 Port Access Switches

Cisco WS-C2960X-24PS-L or equivalent

48 Port Access Switches

Cisco WS-C2960X-48FPS-L or equivalent

48 Port Core Switches

Cisco WS-C3850-48F-L or equivalent

UPSs

APC SMT1500RM2U or equivalent

Managed Services/BM Specifications Part 4

In addition to the cabling upgrades and equipment purchases to include installation, configuration and training, the Tunica County School District is seeking proposals for Managed Services as defined in the 2016 Erate Eligible Services List for the Wireless LAN infrastructure. The district is also seeking Managed Services as defined in the 2016 Erate Eligible Services List for its Wired Network. The Wireless and Wired Managed Services Contract may be quoted separately or together as one contract.

The Tunica County School District as a separate proposal is seeking a Category 2 Basic Maintenance Contract as defined by the Erate Eligible Services List for 2016. This Contract is for Break/Fix type service only or any applicable warranty or support defined as eligible for Basic Maintenance.

Both Contracts should be quoted as a Monthly Recurring Charge.

Contracts will have a 5 year term from July 1, 2016 through June 30, 2021. If the project is not funded until after July 1, 2016 the contract will be in effect from the day of notification of funding from USAC until June 30, 2021. The Tunica County School District will not be responsible for the Contracts Monthly Recurring Fees for months prior to a funding commitment from USAC in 2016. The contract is also contingent upon annual funding by USAC. If at any time during the contract term, USAC denies funding, the contract may be terminated without penalty.

Please provide a narrative describing your Managed Services to include remote network monitoring capabilities, reporting capabilities, trouble ticketing procedures, availability and response time if an engineer is required on site.

Other Considerations

The Tunica County School District welcomes proposals that may not meet these specifications exactly. However, such proposals must explain in detail how the alternative proposal will meet the general specifications of this RFP and why the district should consider such an alternative. If the explanation and reasoning satisfies both the District Administration and members of the IT department of the Tunica County School District, then the proposal will be considered as if it meets specifications.

Tunica County School District requires that the winning vendor uses the Erate Discount Billing Method (SPI).

All quotes must clearly show line item pricing. District reserves the right to increase or decrease quantities. Line item cost will be used for any increase or decrease in quantities purchased after funding.

District Responsibilities

- Clearly mark all IDFs and MDFs
- Provide IT personnel on-site during the installation process to answer questions and make needed decisions.
- Any responsibility specified for the district elsewhere in this document.

Vendor Responsibilities

- Remove all current Access Points, Arrays and network cables and move them to the Tunica County School District IT Department building at Rosa Fort High School in Tunica. If the current network cable is Cat 6 rated, then the provider may use it for the project. Most current cables are NOT Cat 6 rated.
- Install all proposed Access Points, Cabling, Patch Panels.
- Terminate all cables on both ends
- Provide Cat 6 Patch Cables to connect to the district switches.
- Provide power supplies if the chosen termination IDF does not have PoE switches.
- Configure system to accommodate up to 6 SSIDs if needed.
- Train designated district IT personnel to configure SSIDs and VLANS, update and maintain the system.
- Attach **YELLOW** Cat 6 patch cables provided by the vendor from the patch panel to the district switches
- Vendor is to provide Tunica Technology Department with a detailed digital excel spreadsheet with all new equipment installed and existing equipment to be removed to include models, serial numbers, Tunica County School District fixed asset barcodes, school, building, and room numbers.
- Any responsibility specified for the vendor elsewhere in this document.

Current Equipment

- All current equipment will remain the property of the Tunica County School District regardless of its use or non-use in the successful proposal.
- The vendor will be responsible for reconfiguration of the Tunica County School District's existing switches if any switch configuration is required to make the new wireless system function properly or to integrate the LAN Switch upgrade with the existing equipment

Current Network Bandwidth and WAN Configuration

- Each building in the Tunica County School District is connected to each other via a switched 1G fiber optic WAN provided by INLINE.
- A Server is located at each school and centralized devices are located at the main network hub at Tunica District Office.
- Currently, the district has a 200 Mbps Internet connection that services the entire district. It also connects at Tunica District Office. The district receives Internet services from C Spire.
- Firewall and Filtering is provided by the Tunica County School District.

E-Rate

This proposal request is for services to be subsidized under the Universal Services E-Rate Program for Schools and Libraries. No purchase order will be issued, no installation will occur and no services will be provided until approval of the form 471 application that is issued as a result of the proposals being submitted in response to this request AND approval by Tunica County Board of Education for the school district's Non-erate portion. If District funds are not available for the district portion, all contracts will become null and void and the project will not be implemented.

Right to Reject

The Tunica County School District reserves the right to accept or reject all proposals or sections thereof when the rejection is in the best interest of the school system. The Tunica County School District reserves the right to award without further discussion. Therefore, responses should be submitted initially with the most favorable terms the vendor proposes. The Tunica County School District reserves the right to reject the proposal of a vendor who has previously failed to perform properly or completed on time contracts and to reject the proposal of any vendor who in the opinion of the Tunica County School District Board of Trustees, is not in a position to adequately perform the contract. The Tunica County School District Board of Trustees reserves the right to reject any and all proposals, any part or parts of a proposal, waive any technicalities/informalities, increase or reduce quantities, make modifications or specifications, and award any or the entire contract in a manner that is in the best interest of the Tunica County School District. Contracts will be awarded for each part of the RFP to the vendor or vendors submitting the proposal determined to be in the best interests of the Tunica County School District.

Vendor should provide quotes on their standard quote form to show line item pricing. Quotes should show equipment pricing along with price for installation and configuration. Please ensure that line item costs are clear for cabling. For example, please ensure that cost per single drop, double drop, etc is clear.

Required Documents

Specifications for the proposed hardware and software

Completed Reference Forms

Documentation of the vendor's switching, wireless and cabling certifications

Certificate of Responsibility if applicable

Erate SPIN number

Qualifications and training of vendor technical staff

Vendor standard quote forms

Bid Worksheet

If the proposal does not meet the stated specifications, the vendor must include a detailed proposal along with a detailed explanation as to why the vendor believes the proposal will meet the stated needs of the Tunica County School District and why the district should consider their proposal.
